L. Ricketts Esquire,
Inspector General of Police in Mysore

To

The Chief secretary
to the Government of Mysore.

Sir,

I have the honor to forward copy of Hassan Deputy Commissioner's letter No 140, dated the 19th ultimo, bringing to notice the serious inconvenience to which Policeme stationed at Arsikere are subjected from the scarcity of house accommodation in that Town - Government is aware that Arsikere was a small place and has been suddenly raised to a position of importance and has within a very short time received an abnormal accession to its population - House accommodation has not therefore been able to keep pace with the demand for it and the result has been that house rent has run up high so as to become a serious item in the ex: penses of life of low paid Government

servants

servants. In every town of this description, Bowringpet for instance, the same difficulty was presented itself. Men whose native zone is in the Town get on somehow, but in the interests of the police service local combination has often to be broken up by the introduction of outsiders to whom such a transfer becomes a serious hardship. I have the honor in these circumstances to support the Deputy Commissioner's recommendation for an allowance on account of house rent of one Rupee per man up to and including the grade of Duffédars. When this proposal is approved, I shall submit a detailed statement of the number of men for whom house rent has to be given, for final sanction.

I have the honor to be,
sir,
your most obedient servant,

Inspector General of Police.

Sir

I have the honor to forward for your information Police Assistant Commissioner's Memo dated 23rd Ultimo bringing to notice the urgent necessity which exists in Arsikere for lines for the Police Constables Stationed in the place. I strongly support the Assistant Commissioner's proposal. But as I do not see the present possibility or even the near likelihood of providing this accomodation, with the present poor provision in the Budget of 3000 Rupees a year and even the poorer allotment of only 1000 Rupees this year which has to be appropriated to the completion of incomplete works. There is no probability

probability of getting Sufficient money for the erection of Substantial huts for the Police in this place. Nevertheless, I am of opinion that some immediate relief is absolutely called for. Houses cannot be hired at all, if available, the rent is high. In most cases a room or a couple of rooms cannot be hired for less than a Rupee. I therefore beg to recommend for your favorable Consideration that as a temporary measure a rent allowance of one Rupee for each Constable may be Sanctioned till lines are Constructed. The Police Assistant Commissioner will be requested to disburse this allowance only in cases approved by him after personal enquiry. I will take the earliest opportunity of Constructing lines here as soon as I get my provision for the next official year which is not far off. I hope the provision will not be less than 4 000 Rupees. I could not utilize the 1000 Rupees available for this year, as it is required to push on the incom-plete works which fact I have intimated to

to the Executive Engineer.

At the instance of the Deputy Commissioner of the Hassan District, the Inspector General of Police recommends the Grant of an allowance on account of House rent of one Rupee per mensem to each of the 15 Constables and Duffedars Stationed at Arsikere, on account of Scarcity of houses

From,

To, The Chief Secretary to the
Government of Mysore.

Sir,

With reference to Government Proceedings No. 4763-5/487 dated 15th July 1891, sanctioning house rent for one year for the Policemen stationed at Arsikere, I have the honor to report that the period has expired and that owing to the insufficiency of funds allotted to this Department, the work of constructing Police lines at Arsikere has not as yet been put in hand.

2. In this connection I beg to enclose copy of letter No. 4866 of the 2nd ~~instant~~ October with enclosure from the Chief Engineer of Mysore, showing that the

the amount appropriated for Police works up to the 2nd November 1892 is Rs. 15,362 leaving a balance of Rs. 6,138 available for the remainder of the year from the grant of Rs. 21,500 reserved for Police works during 1892-93.

Proposals for urgent works have been sent to the Chief Engineer for the appropriation of the balance of the grant.

3. Estimates have been received from the Deputy Commissioners of Districts for the construction of Stations and Lines, amounting to Rs. 28,922 besides a Police Station at Janakal, Holalkere Taluk, a lock-up at Srinivaspur and Lines for officers and men at Mudigere and at the Gold Mines, all of which are stated to be urgent works.

4. The most urgent of the works recommended by the Deputy Commissioners are those in the Malnad where want of accommodation is much felt and men are put to considerable hardship during the rainy season even to the extent of making them neglect their ordinary work.

5. If as ordered in the above Proceedings,

Proceedings, the Police Lines and officers quarters at Arsikere are to be started during the current year, more funds are necessary. The estimate submitted by the Executive Engineer for the construction of this work amounts to Rs. 7,250.

6. It will be seen that the funds allotted for Police buildings in the current year are by no means sufficient to meet the outlay on urgently required works, and I therefore beg that you will move the Government to sanction an additional allotment of at least Rs. 15,000 to meet the urgent requirements of the year.

7. As it will take a year or so before the Lines are undertaken and completed, I beg that sanction may be accorded to the continuance of the house rent already sanctioned to the Policemen stationed at Arsikere for another year as recommended by the Deputy Commissioner.—

Sir,

I have the honor to forward for your information the accompanying statement showing the amounts appropriated for incomplete Police works of the past official year, the allotments provided for works of this class in the Final Budget, and the appropriations granted for fresh works sanctioned since the 1st July 1892. These aggregate Rs. 15,362/- leaving a balance of Rs. 6,138/- available for the remainder of the year from the grant of Rs. 21,500/- reserved for Police works during 1892-93.

2. I request you will be so good as to inform me at your earliest convenience how you propose to distribute the above balance to the several Districts.

3. I request the return of the Estimate for the proposed additions to the Police station at Bowringpett forwarded to you with my letter No. 4585 of 22nd October 1891, if you decide upon the work being carried out this year from the above available grant.—

allotment of at least Rs 15000/= to cover compensation Police lines & to meet other urgent requirements of the year, as also to the continuance of the lumsepent allowance, sanctioned in the Pros: above cited, for another year.

Order thereon No 8737-8 J.487-92 11 Dec 92

The lumsepent allowance, sanctioned in Pros: No 4743-5/487 of the 18th July 1891, will be continued for a further period of 18 months. Government being thus committed to this expenditure, the Police lines at Arsikere should, as directed in the orders above cited, have been the first work to be next started under "Original Works Police". Government direct that this be now done and the Police lines started at once and without further delay, preference being given thereto before Police lines sanctioned elsewhere.

OFFICE OF THE INSPECTOR GENERAL OF POLICE IN MYSORE.

Dated 13th October 1893.

Enclosure. 1.

From

The Inspector General of Police,
in Mysore.

To

The Chief Secretary
to the Government of Mysore

SIR,

Adverting to correspondence ending with my letter
No. 3465/407 dated 22nd May 1893 regarding the necessity for a sub-
stantially increased allotment for Police buildings durin
the current year, I have the honor to forward a statement
of proposed buildings, (with their approximate cost), re-
ceived from Deputy Commissioners, which claim very early
attention. The Deputy Commissioners represent that the
works should be taken on hand without delay. The work
refer chiefly to Police Stations and Lines for Daffedars and
men, the absence of which is greatly felt in many parts o
the Province, and more especially in the Malnad, where
owing to want of accommodation, the men often fall ill
and the Police Service is becoming unpopular. It is noth
but natural that the absence of Police Stations and Lines
should tell prejudicially upon the health, discipline
and work of the Force.

including Rs 56,125 on account of Lines for the Bangalore city Police This large work may however be taken up last. The other works appear to me urgent and should be started with a little delay as possible. As it would probably not be convenient to provide sufficient funds for all the works in one year, the statement may at least be viewed as a forecast programme of works to be completed in four years. In this view a yearly allotment of not less than Rs 50,000 may, it is requested be sanctioned for the present and a few succeeding years. It may perhaps be observed that the absence of adequate provision under this head in past years has tended to accumulate the wants of the Department, which therefore have to be met by sufficient extra allotments in the future.

3. Out of the sum of Rs 27,000 allotted for Police Works during 1893-94, Rs 17,000 has been set apart for incomplete and original Major Works and Rs 10,000 for minor works. Full appropriation has already been made of the Budget Provision assigned for Major Police buildings and many works of admitted urgency yet remain to be taken up, and as the funds now allotted are insufficient, an additional allotment of Rs 23,000 to make up Rs 50,000 may, it is requested be sanctioned at an early date so that the works of greatest urgency may be selected and put in hand at once

I have the honor to be,
Sir,
Your most obedient Servant

The Village is fast rising in importance and is at some distance from the Station. It is inhabited by troublesome characters. An outpost in the Village is necessary.

No accommodation in the Town. Rents are very high. Lines are therefore very necessary.

The Station is at present held in the Soldiers Lodge attached to the Travellers Bungalow and is a very inconvenient arrangement. A new Station house near the Sompur high Road is very necessary and the Village being far away, Lines for the men are equally necessary.

This is necessary. No accommodation in the village which is far off.

The Village chavdy is being used both as such and as the Police Station. This is very inconvenient. New station house is therefore needed.

There is no accommodation for the Daffedar in the Lines. He is therefore obliged to live in a hut in the village which accidentally caught fire and burnt up his uniform.

Hanglin and Donnasandra are small villages. Want of accommodation is much felt by the men. Lines are therefore very necessary.

Very insufficient accommodation in the village. Hence the need.

The Station is among thick jungles and hills and far away from the small Village where there is no accommodation for the men. Lines are therefore much needed.

These are the original Works of 1892-93; the Executive Engineers asts these amounts to complete them in 1893-94.

These buildings are necessary as the Policemen cannot find accommodation. The present Station is a small flimsy hut and there are no lock-up rooms.

Much inconvenience is experienced for want of a Police Station House. The Janna is now held in one of the rooms of the men.

Remarks against Rl 3 Supra. The Station is now held in the Village Chavadi which is also used by the Hobli Sheikdar &c for revenue purposes.

Men do not find accommodation

The Station is now held in a Mantapam attached to Anjaniah's temple. The Villagers complain of this and pray for the removal of the Station.

Policemen do not find accommodation. The Station is now held in an Ashoorkhana. The Mahomedans of the place pray for the removal of the Station.

The Station is now held in a Mantapam which is not suited for it.

The Station is now held in the Village Chavadi which is not suited for it.

Remarks as against Rl 3 Supra. The Station is now held in a Village Chavadi.

The Station is now held in one of the huts of the men. The Inspector General has seen this and written about it.

Remarks as against Rl 3 Supra. The Station is now held in a small temple.

Policemen cannot find accommodation. This outpost is situat in Nagadi - Huliyurdroog Road. VSCPE

This outpost is situated on the borders of Arsikeray Taluk and a Mantapam is very necessary here for 2 Constables to stop... This is on the Banawar - Sira Road in the Bookkapatna jungle where Constables remain during nights. A Mantapam is therefore very necessary.

District

New building proposed here because present old pattern station has collapsed and beyond repairs. Heavy rainfall in the locality and on Coorg border rendering "Pucca" building necessary.

Present "Kateha" Station quite unfit for this very unhealthy local where there is a heavy rainfall and no Police Lines.

There is a "Pucca" Station here, but no Lines which is a great hardsh to the men as house accommodation cannot be got in the smal hamlet of Nanthanhalli and there is a heavy rainfall here being on the Coorg border.

Exactly the same circumstances as at Nanthanhalli; Mule-Ho being a lonely locality on the border of the Coimbatore District Exactly the same circumstances; Bhimanhalli being a Malnad Locality near the border of the Heggadadevankote and Hunasur T No house accommodation can be obtained in the small villages close to these Stations and the men are put to great hardship Consequence.

Since the opening of the Railway Station here bringing many new residents in the village connected with the Railway house accom modation cannot be obtained and the men therefore put hardship.

The building formerly occupied as the Police Station (old Taluk Cutcherry) became so dilapidated that it was found necessa to remove the Station property to a Mantapam temporar lent for the purpose by a resident of the Village.

This is a Malnad Station which is at present held in a rented house. The building leak much and is unsuited for a station house. The owner has been demanding for its vacation. The men are badly off for want of house accommodation which is very scarce here and they in consequence frequently fall ill. The construction of a station house and Lines is an urgent necessity. If sufficient funds are not allotted this will have to be taken up even abandoning Gendehalli which also is not well off.

Work started. Rs 4000 required for 1893-94 to complete the building

Estimate sanctioned, Work not started. Please see remarks opposite Arehalli These are very necessary. The station is located in the D. P. W. Inspection Lodge for upwards of 10 years past. This is well suited for a station and now has become unsuited for a lodge because houses have sprung up on all sides of it very close to it. A separate lodge will have to be built, but Lines have to be supplemented. Men are put to the greatest difficulty as in the place absolutely no huts could be rented and they are living in miserable hovels which are not adequately protected from bad weather.

These are not less urgent than in Arsikere. Constables pay as much as Rs rent in some instances. Sakleshpur is a small place and houses for rent are not easily available. Malnad Service is very unpopular among the constabulary. The chief cause being the badness of hut accommodation. A separate reference will be submitted to allow house rent for the Constables in this Station. But the providing of these Lines deserves early favorable consideration. Our Malnad requirements will all be met if the proposals now submitted for standard buildings in Arehalli and Gendehalli and these Lines are sanctioned.

This outpost has been inspected by the Inspector General. These have been put off for several years past and should now receive consideration.

A temporary Station is built for the safety of the Road. But the Station has not been manned yet for want of cooking accommodation. It will take long before funds can be set apart for Standard buildings here. The urgency of locating the Station in the road side was what need the structure of the Kacha building. The same consideration is urged for the provision for these huts.

District Continued

The Deputy Commissioner Hassan, very strongly represents the necessity for providing suitable accommodation in his District. The above, he states is a selection of the most urgent Works needed and requests none of these should be delayed this year. Compliance with the Deputy Commissioner's requisition will of course depend upon the amount that is allowed by Government

There is no village close by. The D.P.W Lodge now occupied as Police Station is hardly enough to accommodate the men also. Therefore the want of the Lines is much felt.

This station is about midway between Chitaldroog and Holalkere and therefore the prisoners that are always sent from Chitaldroog to the Central Jail at Bangalore have to halt here for the night. There being no proper Lock ups, the want is much felt.

This is our last station on the Bellary frontier. This station is situated by the side of the Bangalore-Bellary Road. There is no village close by and therefore the building of a Station house and Lines is necessary.

The Station is rather far from the village and therefore the men are obliged to go to the village to live in. It is desirable that the men should remain as near as possible to the Station and so, the building of the Lines is proposed.

The Deputy Commissioner states that all these buildings are very much needed and requests grant of the whole amount no funds having been allotted to this District for the last 5 y

With the last of the letters cited above, the Inspector General of Police in Mysore submits a forecast program of Police buildings, costing in the aggregate Rs 1,97,800, which he states should be taken in hand without delay as the want of suitable

is felt in many parts of the Province and especially in the Malnad where owing to want of accommodation the men fall ill and the Police service is becoming unpopular. He also represents that the want of adequate provision for Police works during the past few years has tended to accumulate the wants of the Police Department which have to be met by sufficient extra allotments for a few years and he requests that for the current and a few succeeding

years an allotment o
not less than Rs 50.00
may be made for the
purpose.

2. With the num
rous demands for Pub
lic Works in the cur
rent year, Govern
ment are unable to
give any additiona
grant this year. Th
Public Works pro-
gramme of the Govt
for the next few year
involves unusually
heavy expenditure
and therefore only
about Rs 30,000 can
be assumed as the an
nual grant for the
next few years. The

Inspector General
of Police should ar-
range to spend this
amount upon the
most urgent works.

SIR,

I have the honor to forward herewith Copy of letter No 3831 dated 27th July/94 from the Chief Engineer of Mysore, intimating that Rs 30,000 have been provided for Police Buildings in the Public Works Budget for 1894-95 of which Rs 14,500 have been allotted for major works and and Rs 15,500 for minor works, and stating that after the requirements of incomplete works of the past year are ascertained, the amount that would be available for fresh works will be intimated; and with reference thereto, I beg to state that at least more than half the amount allotted for minor works will be required for incomplete works of the past year, leaving only a small amount for fresh works, which will not be sufficient even to meet the requirements of

of one District fully. I submit herewith a statement of Police Stations and Lines recommended by the Deputy Commissioners as being very urgently required this year the Estimates for which amount to Rs 46,222. Some of the Districts have not yet sent in their proposals.

2. As the Budget Estimates of the Police Works Department are now before the Government, I request that you will be so good as to move the Dewan to Sanction an enhanced grant and place at my disposal at least Rs 20,000 in addition to the amount allotted by the Chief Engineer, to enable me to meet some at least of the urgent demands of the Deputy Commissioners for the Construction of Police Stations and Lines in their Districts.

3. I beg that early orders may be passed.

SIR,

Government Proceedings No. 4743-5 dated 18th July 1894.
do No. 8217-8 dated 19th December 1892.
do 1894

With reference to Government Proceedings quoted in the margin sanctioning a house rent of one rupee per month to each of the Policemen stationed at Arsikere, I have the honor to report that the period for which house rent was sanctioned expired in January 1894. The Deputy Commissioner, Hassan, however continued the payment of house rent to the men in expectation of the work being completed shortly so that he might obtain the sanction of Government for a definite period once for all. As only one out of the two lines sanctioned, has been completed, the Deputy Commissioner requests sanction to the continuance of the payment of house rent to the men as here under.

1. For 16 Policemen from January 1894 up to the end of December 1894.

2. For 8 men from January 1894 up to the end of June 1895.

3. For 4 Extra Constables recently sanctioned to the Arsikere Station (vide Government Proceedings camp Cº No. 579-21 of 21st June last) from 1st July 1894 till accommodation is provided for them.

2. I beg that the proposals of the Deputy Commissioner, Hassan, as contained in his letter Cº No. 288 of 29th December 1894 (Copy of which is enclosed) may be sanctioned.

From, The Deputy Commissioner,
Hassan District.

To, The Inspector General
of Police in Mysore.

Sir,

With reference to your docket No. 1443/73 dated 10th Instant, I have the honor to state that owing to the scarcity of house accommodation at Arsikere, the Government sanctioned the payment of a house rent allowance of one rupee per month to each of the Policemen, stationed there for one year in Proceedings No. 4743-5/487 of the 18th July 1891. After the expiry of that period a representation was made for the continuance of the allowance for a further period of 18 months as the construction of the Police Lines had not been commenced. The payment was accordingly sanctioned in Proceedings No. 8737-8/487 dated 19th December 1892, and this extended period also expired by the end of January 1894.

In the above Proceedings, the Government directed that the work of constructing the Lines at Arsikere, should at once be started without further delay, preference being given there to Police Lines proposed elsewhere. Accordingly the work was undertaken by the D. P. W. and it is still incomplete. The payment of the allowance was, however, continued till the end of September 1894, and application for further extension of the period was delayed

in

in expectation of the work being completed in order that sanction may be obtained for a definite period once for all. But, as it is now understood, by a reference to the Executive Engineer that one of the two Lines sanctioned to be constructed for men has been completed, and the other line has been just started, I think, this will not be ready for occupation for about Six months to come. I request you will kindly obtain sanction of Government for the continuance of the allowance with retrospective effect ie from January 1894, upto the end of December 1894, for 16 men, and upto the end of June 1895 for 8 men.

I also request that similar concession may be shewn from 1st July 1894, to the 4 Extra Constables recently sanctioned to the Arikere Station till accommodation is provided to them as above.

I have &c.

Signed S. Amir Hasan.

For Deputy Commissioner.
